

CompPharma Fact Sheet

What:

CompPharma, LLC is a consortium of pharmacy benefit management (PBM) firms that provide services for the workers' compensation marketplace. CompPharma gives member PBMs a platform for researching solutions to issues that affect the whole industry, including technology, standardization formats and advocacy. CompPharma coordinates public affairs efforts, retaining lobbyists in various states, and educates lawmakers and regulators on issues related to pharmacy in workers' compensation. Our public affairs goals are to facilitate an open marketplace, ensure access to appropriate medications for workers' compensation claimants, and maintain the ability of member PBMs to profitably conduct business and serve their customers.

The organization also has a Script Capture program that automatically identifies the PBM that should receive and manage a pharmacy claim and transmits the claim to that PBM.

Who:

CompPharma member PBMs are:

- Cypress Care/Healthcare Solutions
- Express Scripts
- Healthesystems
- Modern Medical
- MyMatrixx
- PMSI
- Progressive Medical
- ScripNet

Impact:

Nationally, CompPharma's members handle more than 12 million workers' compensation pharmacy prescriptions a year, for a total of \$1.6 billion in annual prescription dollars.

When:

Established in 2006, the company is based in Tampa, Fla., and owned by industry consultants Joseph Paduda and Helen Knight.
